

Seesaw Admin - Book Category Management Flow

Page 1

← → ↻ 📄

List of categories Add New Category

Category Name	Status	Action
Category 1	Active	View Details
Category 2	Active	View Details
Category 3	Active	View Details

Note

This page will show the list of categories added in the Seesaw platform by the admin.

Admin can add a new category by clicking "Add New Category" button.

Clicking on the "View Details" link will take admin to the category details page to map Seesaw category with the book providers categories.

Search & select categories available in Magicblox to map with Seesaw book category

Search Magicblox Categories 🔍

Cat 1 Cat 4
 Cat 2 Cat 5
 Cat 3 Cat 6

Save

Note

This page will allow admin to map categories from different book providers with the Seesaw category.

Here are showing Providers in each tab to make it easier for the integration of new provider. As we have Magicblox only now, there will be a single tab. However, if we integrate more book providers, we will keep adding the tabs for each one and implement their features.

In this page, admin can search categories from Magicblox and select multiple categories to map with Seesaw category. This will allow Seesaw platform to fetch books from Magicblox for each Seesaw category based on mapping categories.
